

LOS ANGELES COMMUNITY CHOICE ENERGY (LACCE)

1. What is LACCE?

Los Angeles Community Choice Energy (LACCE) is the name for a regional Community Choice Aggregation program in Los Angeles County.

Community Choice Aggregation (CCA), authorized in California under AB 117 (2002) and SB 790 (2011), allows local governments, including counties and cities, to purchase electricity in the wholesale power market and sell it to their residents and businesses at competitive rates as an alternative to electricity provided by an investor owned utility (IOU).

2. About the LACCE Feasibility Study

The County of Los Angeles, at the direction of the Board of Supervisors, initiated a technical feasibility study to determine if the County can meet the electricity load requirements for 82 eligible cities and County unincorporated areas with rates that are competitive with the local IOU, Southern California Edison. This feasibility study culminated in a Business Plan. This Business Plan concluded that the formation of a CCA in Los Angeles County is financially feasible and would yield considerable benefits for all participating County residents and businesses.

3. LACCE Benefits

Perhaps the greatest benefit of CCA to local governments is the economic vitality it can bring to the community, and the region as a whole. Benefits to the local community include:

- Local control over energy mix - meet or exceed Renewable Portfolio Standard (RPS)
- Create quality jobs and local, renewable generation assets
- Meet or exceed Climate Action Plan goals
- Invest in local energy programs - integrated demand side management
- Provide rate stability - lower costs for homeowners and businesses
- Consumer choice - competition for lower rates and options for cleaner energy

LA's got **GREEN POWER**

4. Process of Formation and Funding

From December 2016 - March 2017, the County worked with relevant stakeholders and interested cities to negotiate a Joint Powers Agreement (JPA) to govern the LACCE program.

On Tuesday, April 18, 2017, the Los Angeles County Board of Supervisors unanimously approved a motion to begin the implementation of LACCE, including the JPA and the \$10 Million in funding needed to begin pre-operation and start up activities.

5. Options for Cities

Initial Participants

Cities that execute the LACCE JPA within 180 days of LACCE's formation will become Initial Participants of the program. Initial Participants will benefit from the \$10 Million loan from Los Angeles County and will not have to commit any funds of their own.

Furthermore, Initial Participants will have the opportunity to make important, foundational decisions at the inception of LACCE. These include the establishment of committees to ensure sound governance and the hiring of an Executive Director to oversee LACCE operations.

(Continued on back)

Membership after Formation

If cities do not wish to be Initial Participants, they will have the option to become a member of LACCE after its formation. In this scenario, a city's membership will be subject to approval of the LACCE Board of Directors, and any conditions that the Board of Directors finds reasonable, potentially including a monetary contribution.

Implementation Schedule

LACCE IMPLEMENTATION SCHEDULE										
2017-2018										
	May	Jun	Jul	Aug	Sept	Oct	Nov	Dec	Jan	
First City adopts JPA		OPEN ENROLLMENT PERIOD								
First LACCE Board Meeting										
Executive Director Search										
Phase 1 begins										

6. Next Steps for Cities

Cities that would like to participate in the LACCE program should reach out to the County of Los Angeles for more information. The County will provide information on upcoming meetings and a more detailed timeline of LACCE formation and launch.

The County can also schedule individual briefings for city councilmembers and/or city staff.
